

"The sessions are invaluable. You are enabling students who are often told that they have 'no creative talent' to see what potential as storytellers lies within them." Teacher

FREE PLAYWRITING WORKSHOPS FOR SCHOOLS!

Our Writing a One Act Play programme is designed to give students at Key Stages 3 and 4 a taste of both playwriting and professional theatre-making through a series of structured, interactive and fun workshops.

Students will:

- Learn about characterisation and plot development
- Cover the principles of structuring a one act play
- Write their own short plays in groups using a variety of playwriting and devising techniques
- Have their plays published as printed playtexts with a copy for each student
- See their plays performed by a cast of professional actors

The programme:

- Helps students to develop skills and confidence in writing, creative thinking, expressing their ideas and team-working
- Is led by professional playwrights with a passion for sharing their experience and knowledge with young people
- Provides a comprehensive Teachers' Toolkit which includes lesson plans, student worksheets and other supporting materials
- Includes a 1-2-1 meeting with our Education Officer to explore other drama resources for your school
- Is completely free of charge!

"The performances of our plays were awesome and the students are still buzzing with the excitement of it all. They were overwhelmed at the presentation of their individual copies of the plays and are the envy of other students in the year group!" Teacher
